PEPECRAL TO THE EVERING WORLD. CHICAGO, May 27 .- Developments in the

matter of the Cronin murder seem to gather as quickly in three days as the mystery settled about it at the time of the doctor's disappearance.

At almost every turn some new ciue is discovered which materially strengthens the position of those who are engaged in the DE. P. H. CRONIN. hunt for the murder-

ers. Following close upon the implication of Detective Coughlin and the discovery of the cottage which was beyond doubt the scene of cottage which was beyond doubt the seene of the outrage comes evidence seemingly in favor of the theory that Dr. Cronin's death was the result of a deliberate conviction in the secret session of an organized body—a committee of the Clan-na-Grel.

The doctor was tried before this Commit-tee, but without his knowledge, and against him was entered the decree that he should be "removed."

him was entered the decree that he should be "removed."
Here again the name of Le Caron, the Eritish spy, comes into the case, for it is deciated that the action of the Committee against Dr. Cronin followed the cabled reports from London as to Le Caron's admission before the Parnell Commission that there were four more spies in America, whose names he dared not give for fear of his life.

Le Caron afterwards did give the names in secret to Justice Hannan, and the suspicion secret to Justice Hannan, and the suspicion that Dr. Cropin was one of them gave rise to

that Dr. Cronin was one of them gave rise to the trial, conviction and murder of the doctor.

But there were plenty of patriotic Irishmen who did not believe in Dr. Cronin's guilt, who remained his friends, who would have saved him, who will assist to the utmost in

the prosecution of his murderers.

Dr. Cronin had many times felt that his life was in danger, but his friends knew more than he, and some of the most zealous of them had even kept a private detective upon his track for nearly a year to guard against cossible attack. Of this the doctor knew tothing, as his friends did not wish to alarm

nothing, as his friends did not wish to alarm him beyond measure.

The Carlson cottage, in Ashland avenue, is constantly guarded by the police, and no one is allowed to enter it. Thousands of people go and gaze at its outside, and the vicinity is constantly througed with these visitors.

Another arrest in connection with the horse-thief Woodruff's story of the affair is that of the man King, said by Woodruff to be the one who hired him to steal Dean's horse carry the bloody trunk away.

The list of strange men whose appearances and disappearances are brought up as bearing on the case has been increased by the addition of a tall, athletic and red harred man, who gave the name of Frawley and hired rooms of Mrs. Gillette, at 226 Ontario street.

He was well'educated and made a most agree

WAS DEVOY MARKED, TOO?

OTHERS SAID TO HAVE BEEN DOOMED TO DIE WITH CRONIN.

One of the most sensational developments in connection with the murder of Dr. Cronin. of Chicago, is the assertion, which is made in this morning's despatches that several other prominent Irishmen had been included in the same secret death sentence which has just been executed against Cronin.

'the men who are said to have been tried. convicted and sentenced to death by this secret conclave are W. J. Hynes, of Chicago, the well-known lawyer, and formerly a Congressman; Father Glesson and Capt. J. P. O'Connor, also of Chicago, and John Devoy and two others, of this city.

It is also stated that Cronin's "removal," as well as that of the others mentioned, was ordered by a committee representing the Clan-na-Gael Society, which has its headquarters in Chicago, on the ground that they were traitors to the Irish cause, their names having been divulged by Le Caron, the spy, during the progress of the recent investiga-tion of the Parnell Commission.

DOUBTED IN NEW YORK. Some of the most prominent Irishmen in

Some of the most prominent Irishmen in New York, both those connected with the Clan-na-Gael and outside of the Society, doubt this version of the story, and say that it is only a device by which the real murderers of Cronn seek to cover up their tracks and turn the detectives off the trail.

It appears upon investigation that there are several persons not readents of Chicago who are suspected of being a cessories of the crime and the arrest of McGeehun, of Philadelphia, reported this morning is taken as evidence that the plot was a deep-laid one, in which many persons all over the country were interested.

WAS JOHN DEVOY MARKED TOO?

WAS JOHN DEVOY MARKED TOO? John Devoy, who, it is well known, was a supporter of Dr. Cronin in his charges against the Chicago clique of the Clan-na-Gaet, which is in control of the affairs of the Society, could not be found this morning.

Several of his friends, however, said that the report that he was marked for death was probably a canerd, a though threats had been several times made by the Chicago clique that those who opposed them had better look out for themselves.

Editor Patrick J. Mechan, of the Irish-

for themselves.

Editor Patrick J. Meehan, of the Irish-American, who is one of the best informed men in this city upon questions relating to Irish affairs in this country, said to a reporter of The Evening World this morning:

"This attempt to explain the foul murder of Dr. Cronin by saying that he was a traitor to the cause and charging him with assisting to give information against Parnell in the London Times prosecution is absurd.

London Times prosecution is absurd. RESULT OF A LOCAL FIGHT.

"Cronin's murder, in my opinion, was the result of a purely local fight which has been going on in the Clan ma-Gael itself for a long time past against the pre-ent leadership of that organization. Everybody knows about it, and knows too that the leaders were very bitter in their enmity against Cronia and his

NEW YORK MEMBERS ON CRONIN'S SIDE. NEW YORK MEMBERS ON CRONIN'S SIDE.

"All the New York members were on the side of Cronin and Devoy, and the charges which they brought against the leaders, that of misappropriating funds of the society, to the amount of \$100,000, intended for the lish cause, but the Chicago clique were kept in power by the superior numbers of the order in the West.

"There were two or three men who ran the whole thing, and although I am not going to mention any names, every one knows who they are.

ing to mention any names, every one knows who they are.

"It is nothing more or less than a trium-virate, and they rule things with arbitrary and supreme power. They have had control of the Irish National League for years, and it was just the evidence that Cronin possessed against them that would in all probability have ousled them from power when the annual convention is held next July.

ALL SORTS OF THREATS. "They have been making all sorts of threats against Cronn and his adherents and it seems a plain case now that they selected him to put out of the way because they re-garded him as the most dangerous of their

foes.
"I do not say that they did the job them-selves, but they pointed out the dog, as it were, and there were plenty to be found to do

the final business.

"It was ad instigated by a few men, whoever may have carried it out, and I don't
believe there was any committee appointed
to hold these alleged secret trials by any considerable number of the Clan-na-Gae!.

WAS IT PAYING OFF A PRIVATE GRUDGE? "It was simply paying off a private grudge against Croniu by some of his bitterest enemies right there in Chicaro, and Irish politics had nothing whatever to do with it. So far as I know ebere is not an Irishman in New York who would not like to see Gronin's murderers brought to justice.

THOSE REPORTS OF MURDER. Crouin's disappearance reports were widely circulated that he had been made away with for political reasons. Those reports, in my opinion, were circulated by the enemies of Crouin to cover up the real motive, for the

rime. I think that when the facts all come out, as there seems to be a prospect that they will now that so many clues have been obtained. hey will prove the truth of this statement.

"These people had a great deal at stake, and if Cronin had proved the truth of his currees they would not only have been thrown from power, but they would without doubt have been obliged to leave the coun-"There were a great many more reasons why they should have been anxious to get him out of the way for such reasons at these than for any of the political reasons alleged, even if the latter were true, which they were

WILL COUGHLIN SQUEAL ?

"There is a general opinion here that Coughlin will squeal to save his own neck, for they have certainly evidence enough to connect him with the murder as an accessory, even if he was not an active accomplice, and he is likely to give everything away.

AN ATTEMPT TO KILL MEEHAN.

"The same sort of thing was tried on me by hired assassins in 1870, just before the O'Neid raid in Canada. I was at that time a Senator in the Fenian Assembly and I op-posed the raid very strongly. "It was instigated by this same Le Caron, and they marked me out as a man to be got-ten rid of. ten rid of.

over here without a friend in the world. I betriended him, but they selected nim for my assessin, and when he attempted my life he was primed with whiskey.

"The raid failed and Le Caron was the only man who profited by it, for he got possession of the erms and ammunition and sold them to a firm in Portland, Me., and pocketed the money. That was the death blow of the Fenian organization, and it has not been in existence now these twenty not been in existence now these twenty rears, despite all assertions to the contrary.

"I have no doubt that it will be shown that Dr. Cronin's murder was the result of private enmity of the same kind." EDWARD J. BOWE'S VIEWS.

Edward J. Rowe, of No. 30 New Bowery, who is a prominent member of the New York Clan-na-Gael, said this morning:

"There is not an Irishman in this city whom I have talked with who would not be glad to see the murderers of Dr. Cronin, and all those who were associated in the crime, brought to invite.

THE CHICAGO CLIQUE AGAIN "It was the result of a personal spite against Dr. Cronin, in my opinion, and I agree with Mr. Meehan in the view that the Chicago clique alone was responsible for it. I don't take any stock in the report that others have been condemned to death by the

same clique.
"It is not a matter that the organization at large is interested in and the conspiracy could not possibly have been sanctioned by any large number of members. Only two or three were in it, and they ought to be found and convicted."

JUST MEZZEROFF'S DESCRIPTION.

One of the mysterious persons whom the Chicago authorities are looking for is a man named Frawley, who is suspected of having some connection with the crime.

He is described as a tall, muscular man with curly red hair, who could speak several foreign languages and had a weakness for mathematics and chemistry, on which subjects he used to give evening lectures to the boarders in the house where he lived.

His appearance, according to these descriptions, corresponds verp nearly to that of "Prof. Mezzeroff," the dynamiter, who has not been seen in this city for several months. His acquaintances here, including O'Douovan Rossa, do not know what has become of him.

come of him.

WHERE IS MORONEY. James J. Moroney, another New Yorker, who is a member of the Clan na Gael, and who is known to have been among the oppo-sition to Dr. Cronin, has also been away from town for some time.

Several other Clan-na-Gael men in New

York deny that there is any truth in the state ment that as soon as news was received here of Le (aron's statement that there were four other spics in this country every Clanna-Gee' camp in America met and passed resolutions favoring a rigid hunt for them. In fact, no such information was ever received.

WHAT CHIEF BYBNES SAYS OF IT. When asked this morning what he thought of the Cronin tragedy in Chicago, Inspector Byrnes said that it would be manifestly im-proper for him to express an opinion upon it, and, whatever personal view he might have, he preferred to keep his counsel.

As to what he thought of the efficiency of

As to what he thought of the efficiency of the Chicago police, the Inspector said:
No city of the size of Chicago can expect an efficient police force as long as its present law governing the body of men exists. The Mayor is supreme there, and should a policeman in the performance of his duty arrest or interfere with a man who is a politician or interfere with a man who is a politician or has a pol tical pull he is liable to be called before the Mayor or Chief of Police and dismissed unstanter without a hearing.

before the Mayor or Chief of Police and dis-missed instanter without a hearing.

'To maintain an efficient police this sys-tem must be changed, and men must feel and know that an honest performance of duty will be recognized and their tenure of office is not dependent entirely upon a change of administration of the city's affairs by the vote of the people. The same state of affairs would exist here under similar circum-stances;"

MORE PLUMS TO BE GIVEN.

At Jefferson Market Court to-night the new Board of Police Justices will meet and organize. The present Chairman is Solou B. Smith, a Republican, and he may retain the position, as the seven Tammany Hall justices must combine with at least one Republican to secure a majority of the Board and deprive the County Democrats of any patronage in the police courts.

This fact may also result in the retention of

This fact may also result in the retention of ex-Aiderman Geo. W. Crezier, another Republican, as Clork of the Board, a position which he has held for years.

This is not altogether certain, however, and it is even hinted that the Republicans are to be deprived of some of the police court plums of which they hold a number far in in excess of the proportion of Republican in-tices in the Board.

They have two cleriar, George W. Cregler, with a salary of \$4,000, and Henry C. Perley, £3,000, and Boss Frank Raymond, of the Twenty-third. Assembly District, draws \$2,000 as an assistant clerk, as does also William Morgan, another Republican, and David Seltman, Justice Smith as tangapher.

Republican, and David Seltman, Justice Smith's stenographer.

It's quite probable that some approintments may be made at the Board's meeting to-night.

Each of the new justices, McMahon, Hogan, Cochrane and Taintor, have the privilege or naming an assistant clerk at a salary of \$2,000, and if the men who have been selected for the places have successfully passed through the civil-service examining mill of Chief Examiner. Ackerman they will receive their commissions.

Among the men who have been mentioned as probable appointees to the eclerkships are Assemblyman Jerry Hayer, of the Fourth District; Thomas H. McEvoy, of the Twenty-third Ward, and ex-Assemblyman Solimon D. Rosenthal, of the Twelfth District. Poice Justice Tainter will probably name a Republican. The men mentioned are stanch supporters of Tammany Hall.

The Denuis Clerkship of the tourt of Special

will probably pame a Republicar. The memmentioned are stanch supporters of Tammany
Hall.

The Deputy Clerk-hip of the Court of Special
Sessions has been vacant since the death of
Joseph A. Monheimer, early in March, and it is
expected that the new Board will fill it with a
good Tammany Hall Democrat to-night.

The fortunale individual booked for this snng

the leader of the Ninth District.

John Ahearn, one of Commissioner of Jurors
Reilly's County Democracy lieutenants in the
Sixth District, is at pre-ent drawing \$3,000 annually as Clerk of Essex Market Court, but his
term of office has expired and he is hable to find

After the baby died the doctor was notified and he gave the heart-broken mothers paper, probably a death certificate, which he told her must be sent to the Coroners' office.

the Streets at a Rope's End.

ISPECIAL TO THE EVERING WORLD. PORT HURON. May 27 .- A horrible lynching took place here this morning, the victim being a mulatto named Albert Martin, who assaulted Mrs. John Gillis a fortnight ago. At 2 o'clock this morning a gang of fifty men, coming from no one knows where whirled through the streets, stormed the jail, beat down the doors and threw a noose

around Martin's neck as he lay in his cell. Then, with a blood-curdling yell that could have I cen heard for a mile, the most s arted on a run.

Martin was unable to regain his feet, and as he was dragged through the Sheriff's office out to the street his head struck a coal-stove with such force as to turn it half way round. Amid shouts and the firing of revolvers the ufuriate mob headed for the Seventh street

bridge, three blocks away.

They had to turn two street corners on their way, and as they made the turn the poor wretch's head caught in the stone covering o the gutter.
No effort was made to extricate him, and

the halt was only long enough to give a terri-ble tug on the rope, by which the body was released.

The noose on the rope had loosened, and the knot, being in front, slipped over the prisoner's chin and into his mouth. It was then tigh ened until his lower jaw was pulled down upon his neck in a manner which must have caused the victim terrible

which must have caused the victim terrible suffering.

Upon arriving at the bridge, one end of the rope was thrown over an iron stringer and Martin was swang off.

Ha body, which by this time must have been lifeless, was left hanging, and with a few parting shots the mob quit the scene.

No attempt has been made to arrest any member of the mob.

IS HE OGDEN OR ORR?

Mystery Maintained Over a Would-Be Morphine Suicide.

An attempt at suicide which has an element of mystery about it was made in the United States Hotel, on the southeast corner of Pearl and Full in streets, early this morning. The would be suicide is a young and refined-looking man, who is registered on the police and hospital books as William J. Ogden.

He was found suffering from morphine poisoning at 1 o'clock this morning in the hotel. He had come down from his from apparently in great agony and confided to the night elerk that his condition was caused by

Judge Daly Decides Against the Daughter and the Seymours.

James M. Prohibited from Yoting Upon Those 500 Shares of Stock.

He Is Tripped Up on an Affidavit Made Recently in Another Court.

Mrs. Harriet Hubbard Ayer gets all she had asked for at the hands of the General Term of the Court of Common Pleas in the litigation between herself on the one side and her ion-in-law and his father, James M. Seymour. Judge Daly submitted the decision of the Court to-day, continuing the injunction restraining the Seymour's from selling, disposing of or voting upon the 500 shar stock in the Recamier Manufacturing Company, which she declares her daughter's father-in-law holds as collateral for a loan

pany, which she declares her daughter's father-in-law holds as collateral for a loan made by him to her.

A receiver will also be appointed, in accordance with Mrs. Ayer's motion, and the motion of the Seymours to discontinue the action was denied.

Mrs. Ayer alleges that the senior Seymour loaned \$50,000 to the Company, of whi is she was the President, and that she deposited with him 500 shares of stock in the Company as security. She says that when this loan was paid Seymour refused to return the stock.

The beautiful plaintiff claims that Beymour and his son con-pired with others to have her declared a lunstic and had dan recous drugs administered to her for the purpose of weakening her mind and body.

Seymour denied all this and said that the stock had been given to him in payment for his services to the Company.

In his decision Judge Daly called the attention of Seymour to the disagreeable fact that in a suit in City Court in which he was a witness for Mrs. Ayer he denied under oath that he owned a share of stock or had any financial interest in the Recamier Company, and the Court declares that "the unimosched testimony of Mrs. Ayer outweighs the bare denied made by Seymour."

"And this conclusion," the Judge continues, "is strengthened by the attitude of James M. Seymour respecting the serious charge that he fra-dulently obtained access to Mrs. Ayer's house while she was in Europe and carried away writings which were of especial value to her and were her private p operty."

Seymour explained his apparent contradic-

especial value to her and were her private p operty."

Seymour explained his apparent contradiction of his City Court testimony by stating that at the time of the sun in City Court his stock was held by his wise as security for a loan, but Judge Daly notes the absence of any effidavit of his wife and says Seymour's sia ement is not properly supported.

Peter Bodine's affidavit that Mrs. Ayer had frequently told him that it was her desire that the Company should be the property of her daughter Hattie and her husband, the junior Seymour, was commented on by Judge Daly, as follows.

With respect to this statement it would seem

With respect to this statement it would seem that the probabilities are against the accuracy of the witness's recollector. Mrs. Ager had then and now another child who would be cut off by such a disposition of her property, and no reason for this intention or resolution is

no reason for this intention or resolution is shown.

The decision as to what was the agreement upon which the shares were to be transferred by her to James M. Seymour, whether they were to be his property or were to be held as security only, must mainly rest upon the degree of credit to be given to her testimony as opposed to his. "Seymour does not deny that he went to the house and made false representations to obtain access to the papers, but contents himself with wearing that he never broke open any bag, trunk or closet, and took anything from them. This extraordinary admission of gaining access to plaintiff apapers by fraud for he does not produce the alleged cable message, nor say that he even had the plaintiff a permission to search among her papers) makes it apparent that he is deterred by no accupies, and makes his denials of the the least possible weight. He does not produce the paper or papers taken away, so we must conclude that they would not corroborate kim, nor sustain his version of the transactions.

In respect to the charges of poisoning the Judge says that a prescription prepared by the plaintiff showed that sulfonal had been given in excessive and frequent doses. It was evident, the Judge rays, that the de-fendants used Miss Howard to keep Mrs. Aver out of this country. The Judge con-tinues:

Aver out of this country.

The evidence clearly establishes as I have said that the defendants James M. Seymour, and his son, A. Lewis Seymour, were engaged in the effort to keep the plaintiff out of the country and away from the management of the business, which was entirely in their hands and under their countrol. The opinion further says that Mrs. Harriet Seymour has not been served with the sum-mons and complaint, but that it is evident that she was in league with the other de-

fact she was in league with the other de-fendants.

Judge Daly also handed down a decision in the act on which Mrs. Ayer, as the Recamier Manufacturing Company, brought against James M. Seymour and A. Lewis Seymour to obtain an ac ounting from the defendants of moneys sileged to have been wrongfully drawn from the Lusiness, and res rain the defendants from drawing any further moneys from the concern. from the concern.
Judge Daly sustains Mrs. Ayer in this suit also and grants the injunction.

---QUARTER OF A MILLION IN RUINS. The Largest Portion of Repo, Nev., Burned

IPPPCIAL TO THE EVENING WORLD. RENO, Nev. May 27.-The largest portion of this city lies in smouldering rains to-day. A fire broke out late yesterday afternoon in the old theatre building opposite the depot hotel and soon had consumed the hotel and six

other buildings.
It then spread rapidly, burning in turn the Piones r Hotel. Latayette House, Folkard House, Pyramid House and partially burned the Nevada and California Depot.
On Centre street ten residences and five burness houses were totally destroyed, leaving but one house in the block.
Then two large flour mills and the Central Pacific round-house and shops were consumed. The loss is roughly estimated at \$250,006, but will probably run above that amount.
